

Table of Contents

| | |
|--|-----|
| Conference Organization | iii |
| Preface | v |
| Keynote 1: | |
| Re-engineering Software Development Process for eBusiness Application Development .. <i>Athula Ginige, University of Western Sydney, Australia</i> | 1 |
| Session 1A: Web Engineering | |
| Revealing Web User Requirements through e-Prototyping..... <i>Martin Jeenicke, Wolf Gideo-Bleek, Ralf Klischewski, University of Hamburg, Germany</i> | 9 |
| WebML+ : a Web modeling language for forming a bridge between business modeling and information modeling..... <i>Rachatrin Tongrunrojana, David Lowe, University of Technology, Sydney, Australia</i> | 17 |
| An Evaluation of Web3d Technologies from Developer’s and End-User’s Point of View..... <i>Gennario Costagliola, Sergio di Martino, Filomena Ferrucci, Università degli Studi di Salerno, Italy</i> | 25 |
| Representing and Querying the Evolution of Databases and their Schemas in XML..... <i>Fusheng Wang and Carlo Zaniolo, University of California, Los Angeles</i> | 33 |
| Session 1B: Software Maintenance | |
| Corrective Maintenance Process: a Case Study from a Telecom Software Development and Maintenance Organization..... <i>Antonio Fresa, M.C. Annosi, F. Forte, Ericsson Lab Italy</i> | 39 |
| Revision Recognition for Scientific Computing: Theory and Application..... <i>Andrew P. Strelzoff, University of California - Santa Barbara, USA</i> | 46 |
| Adding Verification Property of Inter-Processes Using Aspect-Oriented Approach..... <i>Pantti Netiniantti, Bangkok University, Thailand Tzilla Elrad, Illinois Institute of Technology, U.S.A.</i> | 54 |

| | |
|---|-----|
| Knowledge for Software Maintenance..... | 61 |
| <i>Nicolas Anquetil, Káthia Oliveira, Márcio Greyck Dias, Marcelo Ramal, Ricardo Meneses, Universidade Católica de Brasília, Brazil</i> | |
| Session 2A: Software Measurements | |
| Application of Neural Networks for Estimating Software Maintainability Using Object-Oriented Metrics..... | 69 |
| <i>Mie Mie Thet Thwin, Tong-Seng Quah, Nanyang Technological University, Singapore</i> | |
| Spatial Data Analysis as a Software Quality Modeling Technique..... | 74 |
| <i>Justin M. Beaver, NASA, USA, Guy A. Schiavone, University of Central Florida, USA</i> | |
| Towards an Ontology for Software Measurement..... | 78 |
| <i>Marcela Genero, Francisco Ruiz, Mario Piattini and Coral Calero, University of Castilla - La Mancha, Spain</i> | |
| Session 2B: Agent Systems 1 | |
| Open Giant Intelligent Information Systems and Its Agent-Oriented Analysis and Design. | 85 |
| <i>Longbing Cao, Chunsheng Li, Chengqi Zhang, University of Technology, Sydney, Australia, Ruwei Dai, Institute of Automation, Chinese Academy of Sciences, China</i> | |
| An Ontology Driven Design Method for inter-Agent Communication..... | 90 |
| <i>P. Ciancarini, V. Presutti, L. Abeti, University of Bologna, Italy</i> | |
| From Actors to Applications: Interpreting User Centered Design of Coordination Supports..... | 95 |
| <i>Marcello Sarini, Carla Simone, Università degli Studi Milano-Bicocca, Italy</i> | |
| Social Patterns for Designing Multiagent Systems..... | 103 |
| <i>T. Tung Do, Manuel Kolp, Alain Pirotte, Catholic University of Louvain, Belgium</i> | |
| Session 3A: Software Visualization and Comprehension 1 | |
| Automatic Abstraction of Graphs Based on Node Similarity for Graph Visualization..... | 111 |
| <i>Xiaodi Huang and Wei Lai, Swinburne University of Technology, Australia</i> | |
| Exploring UDDI Registries Using Modified OFDAV Browser..... | 119 |
| <i>Biao Jiang, Mao Lin Huang, University of Technology, Sydney, Australia</i> | |
| Extending UML to Visualize Design Patterns In Class Diagrams..... | 124 |
| <i>Jing Dong and Sheng Yang, University of Texas at Dallas, USA</i> | |

| | |
|--|-----|
| Visualizing Software Architecture with Off-The-Shelf Components..... | 132 |
| <i>Jie Ren, Richard N. Taylor, University of California at Irvine, USA</i> | |

Session 3B: Formal Methods

| | |
|--|-----|
| Semantics of State-Oriented Expressions in the Object Constraint Language..... | 142 |
| <i>Stephan Flake and Wolfgang Mueller, Paderborn University, Germany</i> | |

| | |
|---|-----|
| Deriving Hierarchical Predicate/Transition Nets from Statechart Diagrams..... | 150 |
| <i>Zhijiang Dong, Yujian Fu, Xudong He, Florida International University, USA</i> | |

| | |
|---|-----|
| Lurch: a Lightweight Alternative to Model Checking..... | 158 |
| <i>David Owen, Tim Menzies, West Virginia University, USA</i> | |

| | |
|--|-----|
| TILCO Temporal Logic for Real-Time Systems Implementation in C++..... | 166 |
| <i>P. Bellini, A. Giotti, P. Nesi, D. Rogai, University of Florence, Italy</i> | |

| | |
|---|-----|
| Automated Support for Property Specification Based on Patterns..... | 174 |
| <i>Oscar A. Mondragon, Ann Q. Gates, and Fadi Kassem, University of Texas at El Paso, USA</i> | |

Keynote 2

| | |
|---|-----|
| The Product Flow Model..... | 182 |
| <i>Gio Wiederhold, Stanford University, USA</i> | |

Session 3A: Software Visualization and Comprehension 2

| | |
|---|-----|
| The Role of Knowledge in Software Customization..... | 187 |
| <i>Jeff Michaud and Margaret-Anne Storey, University of Victoria, Canada.</i> | |

| | |
|--|-----|
| Using Critiquing Systems for Inconsistency Detection in Software Engineering Models... .. | 196 |
| <i>Cleidson R. B. de Souza, Hamilton L. R. Oliveira, Cleber R. P. da Rocha, Kleider M. Goncalves, University of Pará, Brazil</i> | |
| <i>David F. Redmiles, University of California, Irvine, USA</i> | |

| | |
|---|-----|
| Partial Slicing for Large Programs..... | 204 |
| <i>Zhenqiang Chen Baowen Xu, Southeast University, Nanjing, China</i> | |
| <i>William Chu, TungHai University, Taiwan</i> | |
| <i>Hongji Yang, De Montfort University, England</i> | |
| <i>Jianjun Zhao, Fukuoka Institute of Technology, Japan</i> | |

| | |
|---|-----|
| Constructing Understandability Model from Design Metrics..... | 208 |
| <i>Matinee Kiewkanya, Nongyao Jindasawat, Nakornthip Prompoon, Pornsiri Muenchaisri, Chulalongkorn University, Thailand</i> | |

Session 4B: Agent Systems 2

| | |
|---|-----|
| Developmental and Operational Processes for Agent-Oriented Database Navigation for Knowledge Discovery..... | 216 |
| <i>M. Brian Blake, Georgetown University, USA</i> | |
| <i>Andrew B. Williams, University of Iowa, USA</i> | |

| | |
|--|-----|
| Dealing with software design issues using an Agent-Oriented methodology..... | 224 |
| <i>Anna Perini, Angelo Susi, ITC-irst, Italy</i> | |

| | |
|--|-----|
| Specifying and Analyzing Agent Architectures using the Agent Competency Framework..... | 232 |
| <i>K. S. Barber and D. N. Lam, University of Texas at Austin, USA</i> | |

Session 5A: Data Mining Approach to SE and KE

| | |
|---|-----|
| Tree-Growth based Sequential and Associative Pattern Discovery..... | 240 |
| <i>M. Baumgarten, A.G. Büchner, J.G. Hughes, University of Ulster, UK</i> | |

| | |
|--|-----|
| An Efficient Knowledge Management Technique for finding Association Rules..... | 245 |
| <i>Farhan Rafique, A.Anwar, NUST Institute of Information Technology, Pakistan</i> | |

| | |
|--|-----|
| CHiC: A Fast Concept Hierarchy Constructor for Discrete or Mixed Mode Databases..... | 250 |
| <i>Ola Ågren, Umeå University, Umeå, Sweden</i> | |

| | |
|---|-----|
| Real-Time Mining of Partial Periodic Patterns..... | 259 |
| <i>Chih Lai, Lawrence Stephanie, Meng Fang, University of St. Thomas, USA</i> | |

Session 5B: Software and Knowledge Reuse

| | |
|--|-----|
| An XVCL-based Approach to Software Product Line Development..... | 267 |
| <i>Hongyu Zhang and Stan Jarzabek, National University of Singapore, Singapore</i> | |

| | |
|---|-----|
| Extracting Knowledge from Technical Documents..... | 276 |
| <i>Joseph Neelamkavil and Michael Kernahan, National Research Council, Canada</i> | |

| | |
|--|-----|
| Case-based Framework Instantiation..... | 281 |
| <i>Carlos J. Fernández-Conde, Pedro A. González-Calero, Univ. Complutense de Madrid, Spain</i> | |

Selection and Reuse of Software Design Patterns Using CBR and WordNet..... 289
Paulo Gomes, Francisco C. Pereira, Paulo Paiva, Nuno Seco, Paulo Carreiro, José L. Ferreira and Carlos Bento, Universidade de Coimbra, Portugal

ROADS: A Reusable, Optimizable Architecture for Decision Systems..... 297
Kareem S. Aggour and Marc Pavese, GE Global Research, USA

Session 6A: UML

Extending UML to Specify and Verify E-commerce Systems..... 306
Mark Song, Adriano Pereira, Fernanda Lima, Gustavo Gorgulho, Sérgio Campos, Wagner Meira Jr., Federal University of Minas Gerais (UFMG), Brazil

Simulation-based Verification of UML models..... 314
Luigi Lavazza, Politecnico di Milano, Italy, Giuseppe Occorso, Technology REPLY, Italy

A Brief Overview of HyM: A Methodology for the Development of Hybrid Intelligent Information Systems..... 322
S. L. Kendal, K Ashton, X Chen, University of Sunderland, UK

Rigorous Description of Software Requirements with UML..... 327
Luigi Lavazza, Politecnico di Milano, Italy

Case-Based Reuse of UML Diagrams..... 335
Paulo Gomes, Francisco C. Pereira, Paulo Paiva, Nuno Seco, Paulo Carreiro, José L. Ferreira and Carlos Bento, Universidade de Coimbra, Portugal

Session 6B: Software Process and Architecture 1

Software Engineering as Technology Transfer..... 340
Daniel E. Cooke, Jason Denton, Texas Tech University, USA

Relational Program Architecture for High Quality Software Development..... 346
Dongfeng Wang, Farokh B. Bastani, and I-Ling Yen, University of Texas at Dallas, USA

A Data Storage Mechanism for Peer-to-Peer Based Decentralised Workflow Systems..... 354
Jun Yan, Yun Yang, Gitesh K. Raikundalia, Swinburne University of Technology, Australia

On Variants of Genericity..... 359
Thomas Schöbel-Theuer, University of Stuttgart, Germany

| | |
|---|-----|
| A Framework for Guiding the Design of Effective Implementation Strategies for Software Process Improvement..... | 366 |
| <i>Mahmood Niazi, David Wilson and Didar Zowghi, University of Technology Sydney, Australia</i> | |

Session 7A: Knowledge Retrieval and Management

| | |
|---|-----|
| Knowledge Organization and Retrieval in the MILK System..... | 372 |
| <i>Roberto Boselli, Flavio DePaoli, Riccardo Dondi, Università di Milano Bicocca, Italy</i> | |
| A Practical Way to Use Clustering and Context Knowledge for Software Project Planning | 377 |
| <i>Jürgen Münch, Fraunhofer Institute for Experimental Software Engineering, Germany</i> | |
| <i>Jens Heidrich, Alexandra Daskovska, University of Kaiserslautern, Germany</i> | |
| On Identifying Deficiencies in a Knowledge Management System..... | 385 |
| <i>Prashant Baheti, Laurie Williams, North Carolina State Univ., USA</i> | |
| <i>Aldo Dagnino, Andrew Cordes, ABB Inc., USA</i> | |
| Knowledge Management for Project Planning and Enactment in Software Engineering.... | 393 |
| <i>Sigrid Goldmann, Harald Holz, Mich M. Richter, University of Kaiserslautern, Germany</i> | |

Session 7B: Software Process and Architecture 2

| | |
|--|-----|
| An Integrated Method to Software Architecture..... | 398 |
| <i>Hassan Reza, University of North Dakota, USA</i> | |
| <i>Xudong He, School of Computer Science, Florida International University, USA</i> | |
| Reasoning about Variability and structural Adaptation in Sociotechnical Systems Using Dynamic Architectures..... | 406 |
| <i>Michael Cebulla, Technische Universitaet Berlin, Germany</i> | |
| A Layered Architecture to Manage Complex Multimedia Services..... | 414 |
| <i>M. Longo, University of Salerno, Italy, P. Asprino, A. Fresa, N. Gaito, CoRiTeL, Italy</i> | |
| A Pattern-like Framework to Dynamically Change Components Behaviour..... | 422 |
| <i>Daniela Micucci, Andrea Trentini, Universita Studi Milano, Italy</i> | |

Session 8A: Knowledge Acquisition

| | |
|---|-----|
| Relative Index Term Frequency (RITF) Method..... | 427 |
| <i>Zhou Jiehan, VTT Electronics, Finland, LAN Haiyang, Tsinghua University, China</i> | |

Tagging Knowledge Acquisition Sessions to Facilitate Knowledge Traceability..... 432
Heather Richter, Gregory D. Abowd, Georgia Tech, USA
Chris Miller, Harry Funk, Smart Information Flow Technologies (SIFT)

Integrating Signature Matching into Knowledge-Based Program Understanding..... 440
Yachai Limpiyakorn, Chulalongkorn University, Thailand
Ilene Burnstein, Illinois Institute of Technology, USA

MFILM: a multi-dimensional fuzzy inductive learning method for knowledge acquisition. 445
Chen, Yao-Tsung, Institute of Information Science, Academia Sinica, Taiwan
Jeng, Bingchiang, National Sun Yat-sen University, Taiwan

Session 8B: Integrity, Security and Fault-Tolerance

Formal Software Architecture Design of Secure Distributed Systems..... 450
Huiqun Yu, Xudong He, Shu Gao, and Yi Deng, Florida International University, USA

Specification and Validation of Fault-Tolerant Software Architectures Based on Actor Model..... 458
Hui Ding, Can Zheng, Lui Sha, Gul Agha, Univ. of Illinois at Urbana-Champaign, USA

Automated Software Design of Process-Control Systems..... 467
Dongfeng Wang, Farokh B. Bastani, and I-Ling Yen, University of Texas at Dallas, USA

Defining Change Management Properties for Component Interoperability Assessment..... 475
T. Gamble, R. Gamble, L. Davis, University of Tulsa, USA

A Step toward building Dynamic Security Infrastructure..... 483
Ibrahim S. Abdullah, Edgar. H. Sibley, George Mason University, USA

Session 9A: Distributed Software Development

Great Challenges and Opportunities of Distributed Software Development - An Industrial Survey..... 489
Seija Komi-Sirviö, Maarit Tihinen, VTT Electronics, Finland, and
Center for Experimental Software Engineering, USA

GENESIS: A Flexible and Distributed Environment for Cooperative Software Engineering..... 497
Lerina Aversano, Andrea De Lucia, University of Sannio, Italy
Matteo Gaeta, Pierluigi Ritrovato, University of Salerno, Italy

| | |
|---|-----|
| A Distributed Document Management Approach for Workflow Support in the DBSA Architecture..... | 503 |
| <i>Andrea Trentini, Francesca Arcelli, Francesco Tisato, University of Milano, Italy</i> | |
| Integrating Publish/Subscribe into a Mobile Teamwork Support Platform..... | 510 |
| <i>S. Chaki, Carnegie Mellon University, USA, P. Fenkam, H. Gall, Technical University Vienna, Austria, S. Jha, University of Wisconsin, USA, E. Kirda, H. Veith, Technical University Vienna, Austria</i> | |
| A Graph-Oriented Approach to the Description and Implementation of Distributed and Dynamic Software Architecture..... | 518 |
| <i>Xiaoxing Ma, Jian Lu, Nanjing University Nanjing, China</i> <i>Jiannong Cao, Alvin T.S. Chan, Hong Kong Polytechnic University, Hong Kong, China</i> <i>Kang Zhang, University of Texas at Dallas, USA</i> | |
| Session 9B: Spatial Reasoning and Search | |
| Agent-assisted Distributed Requirements Elicitation and Management..... | 526 |
| <i>Chee Fon Chang, Aneesh Krishna and Aditya K. Ghose , University of Wollongong, Australia</i> | |
| Infotop – A Shared-context Information Workspace..... | 534 |
| <i>Ronald Maier, Martin-Luther-University Halle-Wittenberg, Germany</i> <i>Johannes Sametinger, Johannes Kepler University Linz, Austria</i> | |
| Analysing Web Ontology in Alloy: A Military Case Study..... | 542 |
| <i>Jin Song Dong, Jun Sun, Hai Wang, School of Computing, National University of Singapore, Chew Hung Lee, Hian Beng Lee, Defence Science Organisation, Singapore</i> | |
| Path Set Operations for Clipping of Parts of Web Pages and Information Extraction from Web pages..... | 547 |
| <i>Tetsuya SUZUKI, Takehiro TOKUDA, Tokyo Institute of Technology, Japan</i> | |
| 3D Time-pillars: an information access metaphor for the TV Domain..... | 555 |
| <i>Fabio Pittarello, Università Ca' Foscari di Venezia, Italy</i> | |
| Session 10A: Requirements Engineering | |
| Early Multi-Level Software Architecture Performance Evaluations..... | 561 |
| <i>K. Suzanne Barber, University of Texas at Austin, USA</i> <i>Jim Holt, Geoff Baker, Motorola, USA</i> | |

| | |
|--|-----|
| Revising Rules to Capture Requirements Traceability Relations: A Machine Learning Approach..... | 570 |
| <i>G. Spanoudakis, A. d'Avila Garcez, A. Zisman, City University, UK</i> | |
| From Requirement Specification to Prototype Execution: a Combination of Multiview Use-Case Driven Methods and Agent-Oriented Techniques..... | 578 |
| <i>E. Astesiano, M. Martelli, V. Mascardi and G. Reggio, Universita` di Genova, Italy</i> | |
| Requirements Negotiation under Incompleteness and Uncertainty..... | 586 |
| <i>An Ngo-The, Gunther Ruhe, University of Calgary, Canada</i> | |
| A Fast Binary Tree Based Face Recognition Algorithm..... | 594 |
| <i>Huaqing Li, Shaoyu Wang and Feihu Qi, Shanghai Jiaotong University, China</i> | |
| Session 10B: Software Testing and Software Education | |
| Management of the Growing Book as Generalized Objects..... | 599 |
| <i>Shuyi Shao and Shi-Kuo Chang, University of Pittsburgh, USA</i> | |
| Better Analysis of Defect Data at NASA..... | 607 |
| <i>Tim Menzies, West Virginia University, USA, Robyn Lutz, Iowa State University, USA Carmen Mikulski, California Institute of Technology, USA</i> | |
| Working with Extreme Programming in a Software Development Laboratory..... | 612 |
| <i>Patricio Letelier, José H. Canós and Emilio A. Sánchez, Polytechnic University of Valencia, Spain</i> | |
| The Algorithm Tutor..... | 616 |
| <i>Eugene Y. Sheng, Northern Illinois University, USA</i> | |
| Session 11A: Data Mining for SE and KE 1 | |
| A Database-Independent Strategy for Confidence Determination..... | 621 |
| <i>Xiaowei Yan, Chengqi Zhang, and Shichao Zhang, University of Technology, Sydney, Australia</i> | |
| Validative measurement in software engineering: a data mining example..... | 626 |
| <i>Ned Chapin, InfoSci Inc., USA Mira Kajko-Mattsson, Stockholm University/Royal Institute of Technology, Sweden</i> | |
| A Data Mining Approach for Dynamic Software Project Plan Tracking..... | 634 |
| <i>Ching-Seh Wu and Dick B. Simmons, Texas A&M University, USA</i> | |

Session 11B: Software Engineering and Decision Support 1

| | |
|---|-----|
| Using Software Risk Management for Deriving Method Requirements for Risk Mitigation in COTS Assessment and Selection..... | 639 |
| <i>Michael Ochs, Fraunhofer Institute IESE, Germany</i> | |
| Traceability and Decision Capture in Semi-structured Contexts..... | 647 |
| <i>Leila Meshkat, Martin Feather, Steven Cornford, California Institute of Technology</i> | |
| Improved Software Engineering Decision Support Through Automatic Argument Reduction Tools..... | 655 |
| <i>Tim Menzies, West Virginia University, James Kiper, Miami University Martin S. Feather, California Institute of Technology</i> | |
| COO-flow: a Process Technology to Support Cooperative Processes | 663 |
| <i>D. Grigori, Université Versailles St-Quentin & INRIA, France F. Charoy, C. Godart, Université Henri Poincaré & INRIA, France</i> | |
| A Holonic Framework for Business Activity Management..... | 671 |
| <i>Jun-Jang Jeng (JJ), Steve Buckley, Henry Chang and Jen-Yao Chung, IBM T.J. Watson Research Center, USA</i> | |

Session 12A: Data Mining for SE and KE 2

| | |
|---|-----|
| Mining Access Patterns for Enhancing Navigational Access in Object-Oriented Database. | 679 |
| <i>Chih Lai, Szara Loring, Joe Breuer, University of St. Thomas, USA</i> | |
| Software Warehouse and Its Management Strategies | 685 |
| <i>Honghua Dai, Wei Dai, Deakin University, Australia</i> | |
| An Integrated Framework for Knowledge Management and Discovery of Tropical Cyclone Movements..... | 691 |
| <i>James N.K. Liu, Raymond Kwong, Wang Meng and Danny K.Y. Sin, Hong Kong Polytechnic University, China</i> | |
| Application of Clustering Techniques to Component Architecture Design..... | 699 |
| <i>Shu-chuan Lo and Jia-hui Chang, National Taipei University of Technology, Taiwan</i> | |

Session 12B: Software Engineering and Decision Support 2

| | |
|--|-----|
| A Bayesian Approach to Software Testing Evaluation..... | 706 |
| <i>Sandro Morasca, Università degli Studi dell'Insubria, Italy</i> | |

| | |
|---|-----|
| A Tool for Decision Support Implementing OFNWA Approach: A Case Study..... | 714 |
| <i>Gerardo Canfora, Luigi Cerulo, Rosa Preziosi, Luigi Troiano, University of Sannio, Italy</i> | |
| Towards a Framework for Web Sites Quality Evaluation..... | 721 |
| <i>Paolo Ciancarini, Rocco Moretti, Dipartimento di Scienze dell'Informazione, Italy</i> | |
| Conceptual Analysis of Software Structure..... | 726 |
| <i>Richard Cole, Thomas Tilley, University of Queensland, Australia</i> | |
| Reviewers | 734 |
| Authors Index | 735 |
